

POSITION

Clearing & Settlement-Manager

Build a team driven by synergy. Collaboration is our key tool to set up the broking back-office.

POSITION

LOCATION

Clearing & Settlement-Manager

Anywhere

We are looking for a candidate for retail broking back-office ops, for clearing and settlement (stocks & funds) of commodities, equity and F&O, with 8-10 years of experience in handling audits, system enhancements and developments.

You will

- Demonstrate deep, consistent and updated market knowledge in regulatory development
- Liaise with internal and external stakeholders like regulators, stock exchanges & depositories
- Drive system enhancements including testing & implementation
- Ensure procedure management enhancement to align with new business, additional controls and best practices

That's it.

If this sounds like your kind of challenge, take our screening test. We are eager to be impressed by you.

20 LACS

PEOPLE PRACTICES

WFH

We're currently in work-from-home mode. Anyone who's keen to join us is welcome to work from wherever they are comfortable.

Caravan

Every quarter, or when the pandemic allows, we bring the whole team together for a co-working and co-living experience in interesting, safe locations. WFH continues, but it can never replace the human bonds we cherish (and miss) so much.

Gifts of Growth

Every quarter, we come together to appreciate each other's awesomeness, and help each other grow through our challenges. We find this gifting season far more rewarding than performance reviews.

Uppraisals

Every year, we give flat increments across the organisation, plus ESOPs to every person regardless of their role or experience. We've chosen holistic, collective growth over competitive, individual gain.
