Compliance Assistant

Anywhere

**We are looking for** someone who has worked as a compliance personnel in a broking firm for at-least 2 years, and has good understanding of NSE and MCX compliances, rules & regulations.

### You will

- Implement and execute all day to day broking compliances with respect to reporting and submissions
- Implement an effective compliance framework for MP broking operations
- Monitor the compliance of the rules, regulations, notifications, guidelines, instructions issued by regulators and exchanges
- Create sound internal controls and monitor adherence to them

That's it.

If this sounds like your kind of challenge, take our screening test. We are eager to be impressed by you.

**20 LACS**

# PEOPLE PRACTICES

## WFH

---

We're currently in work-from-home mode. Anyone who's keen to join us is welcome to work from wherever they are comfortable.

## Caravan

---

Every quarter, or when the pandemic allows, we bring the whole team together for a co-working and co-living experience in interesting, safe locations. WFH continues, but it can never replace the human bonds we cherish (and miss) so much.

## Gifts of Growth

---

Every quarter, we come together to appreciate each other's awesomeness, and help each other grow through our challenges. We find this gifting season far more rewarding than performance reviews.

## Uppraisals

---

Every year, we give flat increments across the organisation, plus ESOPs to every person regardless of their role or experience. We've chosen holistic, collective growth over competitive, individual gain.
